Model 0097

Tension Meter Tester Kit

The Hydrajaws Model 0097 Tension Meter is designed for testing wire ropes used for fall-arrest systems, strain measurement of rigging, guy ropes, tower and mast supports, and checking the security of crimped/swaged end fittings as applied to wire ropes.

Kit Contents

1. Model 0097 Tester with two anchor points
2. 30kN Fixed Gauge* or choice from 10, 15, 20, 25, 30 or 40kN
3. Metal Carry Case with Filler
4. Operating Instructions
5. Calibration Certificate

A Model 0097 'MASTER' Tester with choice of TWO quick release gauges is available.

* All export kits are fitted with a detachable gauge and coupler system

Note:

The Model 0097 Tension Meter/Wire Rope Tester is designed to test wire rope cables however it will require TIRFOR® equipment to produce an external pull force.

Hydrajaws do not sell this apparatus.
