# 

CAT III compatible High-Voltage and True-RMS Measurem

## NEW

High-speed High-Vollage Isolated 4 channel Data Logger

## midi LOGGER / GL2000

#### High speed 1 MS/s simultaneous sampling with voltage and temperature measurement

Temp	20 mV to 1000 V DC, 1-5 V DC 10 mV to 1000 V rms Thermocouples: K, J, E, T, R, S, B, N, W (WRe5-26)	Pulse	4 channels (*1) Accumulating, instant or RPM
Humidity	0 to 100% (the B-530 option is required)	Logic	4 channels (*1)

#### Safer input terminal

Isolated BNC and screw terminal for each channel

#### Available input signal cable

- \*1: Select either Pulse input or Logic input, and use the optional input/output cable for GL (B-513 option).
- \*2. Use with RIC-147.
- Max. rated safety voltage: ± 600 V DC or 600 V rms \*3: \*4:
- Numbers are approximate and under the following conditions Using 4 channels of analog input only and data is saved as a GBD file. External memory device is set to SD flash memory card or

  - USB flash memory with 8 GB or more data capacity File size of captured data is up to 4 GB.

#### Corresponds to CAT III 800 V and 600 V rms measurement

22 322

Supports CAT III 600 V measurement category and can measure voltage fluctuation on power line for peak to peak and RMS measurements. Voltage range up to 1000 V at DC and rms value (\*3)

#### Additional memory function

### Long term recording capability

4 M	sam	ple/ch b	ouilt-in RAN	l and 4 G	B built-ir	n Flash	memory.
Cor	ntinu	ous mea	asurement	supports	s up to 4	GBp	er file.
		64 A					

Memory type (*4)	1MS/s (1µs)	100kS/s (10µs)	1k\$/s (1ms)	1S/s (1s)
Built-in RAM (4 M samples/ch)	4 seconds	40 seconds	66 minutes	46 days
Built-in Flash memory (3.9 GB)	N/A	N/A	3 days 19 hrs	Over 1 year
External memory (SD/USB Flash memory)	N/A	N/A	4 days 3 hrs	Over 1 year

#### Large built-in RAM (4 million samples per channel) Built-in RAM can divide into 1, 2, 4, or 8 blocks supporting continuous high-speed recording measurement with auto backup on the internal Flash memory or USB.

Dual external recording available through USB and **SD Card Flash memory** 

Both the USB Flash memory device and the SD Flash memory card can be used as external storage device for captured data.

#### High performance and easy to use software for PC

#### Standard software: GL980\_2000-APS

- Easy connection made possible with automatic search function for connected device.
- Multiple display format using Y-T graph, X-Y graph and digital values.
- Supports real time data transfer up to 1 ms sampling interval. Captured data from the built-in RAM can also be displayed.
- Captured data saved in binary format can convert to CSV format.

Main unit specif	ications	Description				
		4 channels				
Number of analog input channels External Input (*1)		Logic or Pulse (4 channels), Trigger or Sampling (1 channel)				
	Input (*1)					
input/output	Output (*2)	Alarm (4 channels) or Trigger (1 channel) with Alarm (3 channels)				
Trigger function	Trigger action	Start or stop capturing data by triggering				
	Repeat action	Off, On (Re-armed automatically)				
	Trigger source	Start/Stop : Off, Measured signal, Alarm, External, Scheduled time,				
		Scheduled day, Elapsed time				
	Combination	Level OR, Level AND, Edge OR, Edge AND				
	Threshold	High or Low in level mode, Rising or Falling in edge mode,				
		Window-in (*3), Window-out (*3)				
Alarm function	Alarm action	Display and outputs a signal when alarm is detected				
	Combination	OR (Source channel can be assigned with OR condition to output port				
	Threshold	Analog input : High, Low, Window-in, Window-out				
		Logic input : H or L				
		• Pulse input : High/Rising, Low/Falling, Window-in, Window-out				
		Addition, subtraction, multiplication and division for two analog				
function	channels	inputs (only in GBD format)				
	Statistical	Real-time or between cursors in replay captured data				
	otatiotioa	Function : Max., Min., Peak-to-Peak, Average, RMS (only for replay)				
Scaling (Enginee	ring unit) function	Measured value can be converted to the specified engineering unit				
Storage device(*4)						
Storage device( 4)	Duittent to Aivi	Four million samples for each channel				
		(Memory partition: 4 M samples x 1 bank, 2 M sample x 2 banks,				
	Duilt in Electr	1 M samples x 4 banks, 512 k samples x 8 banks)				
	Built-in Flash	4 GB (for capacity of data: approx. 3.9 GB)				
	External USB	Support USB Flash memory device (*5) by USB2.0 Type A port				
		No memory capacity limit (*6)				
	External SD card					
Capturing mode	Mode	Off (Normal), Ring, Relay				
	Off (Normal)	Save data between start to stop				
	Ring	Save most recent data of specified number				
		Destination : Built-in RAM, Built-in Flash, USB or SD				
		Number of capturing data: 1000 to 10000000 points (*7)				
		• Sampling : 1 MS/s (interval 1 μs) in built-in RAM, 1 kS/s (interval 1 ms)				
		with GBD format in other device, 100 S/s (interval 10 ms) with CSV				
		format in other device				
	Relay	Save data to multiple files with specified capturing time or file size				
		(up to 4 GB) until recording data is stopped				
		Destination of data : Built-in Flash, USB or SD				
		Sampling : 1 kS/s (interval 1 ms) with GBD format,				
		100 S/s (interval 10 ms) with CSV format				
Data backup	Interval	Off, 1, 2, 6, 12, 24 hrs., specific time, or any time with key operation				
Data Dackup	Data destination	Built-in Flash memory, USB memory device, SD Flash memory card				
Diaplay (LCD)	Hot-swapping	USB Flash memory device or SD Flash memory with key operation				
Display (LCD)	Size	7-inch TFT color LCD (WVGA : 800 x 480 dots)				
	Information	Waveform in Y-T with digital values, Enlarged waveforms,				
	-	Digital values and statistics values, X-Y graph				
Interface to PC	Туре	Ethernet (10 BASE-T/100 BASE-TX), USB2.0				
	Ethernet	Web server function, FTP server function, NTP client function				
	functions	DHCP client function, Email send function				
	USB function	USB mode (File transfer and deletion from internal GL980 memory)				
Operating environment		0 to 40 °C when driven by AC adapter or battery,				
		5 to 85 % RH (non condensed)				
Power source		AC adapter : 100 to 240 V AC, 50/60 Hz				
		DC power : 8.5 to 24 V DC				
		Battery pack : Mountable two battery packs (*8)				
Power consumption		Approx. 59 VA (using the AC adapter at 240 V,				
		with LCD display on, and battery packs being charged)				
External dimensi	ons [WxHxD]	Approx. 260 x 161 x 83 mm (with the cover)				
Weight		Approx. 1.7 kg				
Vibuatian unaistan		(the cover is attached, AC adapter and batterys are not included)				
Vibration resistance		Compatible with JIS Vibration test method for automobile				
		Type 1 Class A (Vibration durability test: 5 m/s <sup>2</sup> )				
1. Coloret elaborational	a langest (d. alanana ala) an
